SUMMARY

Frontend Developer with hands-on experience building responsive, user-focused web applications using React.js, JavaScript, HTML5, and CSS3. Experienced in developing reusable UI components, integrating REST APIs, implementing dynamic interfaces, and optimizing applications for responsive and accessible user experiences. Strong focus on clean UI, practical frontend solutions, and modern web development workflows.

EXPERIENCE

Software Engineer Intern | iSON Xperiences — Noida, Uttar Pradesh

March 2025 – April 2025

- Developed a dynamic profile management system using React.js, JavaScript, HTML, and CSS.
- Built dynamic forms with client-side validation and real-time data updates.
- Implemented API-based data fetching and updating for seamless user interactions.
- Created reusable UI components and collaborated with team members to debug and improve application performance.

PROJECTS

Portfolio Ecosystem | [Live Demo](#) | [GitHub](#)

React.js, JavaScript, Tailwind CSS, Express.js, MongoDB, Cloudinary

- Developed a responsive developer portfolio with a dedicated content management system for managing projects, skills, certificates, and achievements.
- Built reusable React components and structured the application into modular content, configuration, and utility layers.
- Implemented an admin dashboard with API-based content management and database integration.
- Added responsive design, dark/light theme support, smooth navigation, and modern UI interactions.

LinkVault — Local-First Bookmark Manager | [Live Demo](#) | [GitHub](#)

React.js, JavaScript, Tailwind CSS, PWA

- Built a local-first bookmark manager for saving, organizing, and finding links efficiently.
- Implemented collections, tags, search, filtering, and bookmark management features.
- Designed a responsive interface optimized for both desktop and mobile devices.
- Added PWA capabilities for an app-like experience and local data persistence.

QR Fusion — Advanced QR Code Generator | [Live Demo](#) | [GitHub](#)

JavaScript, HTML5, CSS3

- Developed a QR code generator supporting multiple QR formats with real-time generation and customization.
- Implemented QR export functionality across PNG, JPEG, PDF, and ZIP formats.
- Added input validation, error handling, and responsive UI interactions.
- Optimized the interface for a smooth experience across desktop and mobile devices.

TypRush — Typing Challenge Tool | [Live Demo](#) | [GitHub](#)

JavaScript, HTML5, CSS3

- Developed a typing challenge application supporting time-based, word-based, and custom typing modes.
- Implemented real-time WPM calculation, accuracy tracking, and performance feedback.
- Built responsive interfaces with a focus on usability and accessibility.
- Added dynamic performance tracking to provide instant typing results.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Web Design

APIs & Backend: REST APIs, Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Figma

Other: API Integration, Reusable Components, PWA, Browser-based Web Applications

EDUCATION

Maharana Institute of Professional Studies — Kanpur, Uttar Pradesh

Bachelor of Technology (B.Tech) in Computer Science and Engineering | 2026

CERTIFICATIONS

- Skyscanner Front-End Software Engineering Job Simulation — Forage | Feb 2026 | [View Certificate](#)
- AWS APAC Solutions Architecture Virtual Experience Program — Forage | Feb 2025 | [View Certificate](#)
